

Why Nexus?

Our mission is to exceed the expectations for all home medical needs. We measure our success on the well-being of our patients, not our market share. Compassion, education and quick response are at the top our list and no concern is ever too small. Nexus believes earning our place in the industry is done one patient at a time.

We employ the latest medical billing technology from Brightree which provides 100% on time automated reordering of supplies. Monitoring of our patients is done through real time applications that are also accessible by your staff if changes are needed and to ensure quick and lasting compliance.

We accept most major insurance policies but are not able to service Medicare CPAP orders at this time. A current list of insurance programs is available on our web site. Our friendly staff will work closely with your team to ensure a seamless transition for each patient you refer and ensure they get the same level of care they receive from you.

CERTIFIED AND ACCREDITED

Nexus Medical Equipment is a BOC accredited facility and our staff holds many certifications including:

- Respiratory Therapy (RT)
- Rehabilitation Technology Suppliers (RTS)
- Seating and Mobility Specialist (SMS)
- Compression Therapy
- Occupational Therapy (OT)

Member of the Veterans Resource Network of Southeast Michigan

FAST RESPONSE:

Insurance coverage and eligibility is usually verified on the same day as receipt of the prescription. The patient is contacted within 24 hours to review their insurance benefits, compliance requirements and to schedule the delivery appointment.

PATIENT CARE & EDUCATION:

Patients are instructed on the operation and care of the equipment. We educate them on the importance of using clean supplies and an understanding of how the resupply works with their insurance coverage. We supply the patient with a custom phone app so they can monitor their own progress and get compliant quicker. We also provide self-serve educational videos so the patient can review all aspects of the education we provided at the time of delivery.

LATEST CPAP TECHNOLOGY:

Nexus uses the latest technology from Resmed and Respironics to monitor the patient's activity daily. Compliance and usage are monitored closely by our friendly well-educated clinical staff.

FULL LINE OF HOME MEDICAL EQUIPMENT

Nexus is a full service HME/DME provider. We take most major insurance plans including Medicare and Medicaid. Our friendly staff of certified professionals will make sure you get the right equipment with fast, free delivery.
